		Total estimated value of accepted bid			**124,425.00**

Access only from wildwood Ave

Cutting Instructions:

Contract available for inspection.

1. Red maple clearcut area: cut all living trees greater than 1 inch in diameter except for oak, black ash, spruce, tamarack, pine, cedar, cherry, non-merchantable fir, hemlock, and yellow paint marked trees. Do not residual cut non-merchantable trees in low wet areas and drainages within the red maple clearcut area.
Swamp conifer clearcut area: cut all living trees greater than 1 inch in diameter except for oak, pine, cedar, cherry, hemlock, and yellow paint marked trees.
Selection harvest area: cut all ironwood, all merchantable aspen, all merchantable fir, all merchantable white birch, and orange paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.

2. All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.

3. Any roadwork will require prior approval of the Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.

4. Gates/berms removed or damaged by contractor must be restored to original or better condition when sale becomes inactive and upon completion.

5. Special care must be taken to not damage or disturb survey markers.

6. Special care must be taken to not damage existing advanced regeneration.

7. Mixed hardwood log volume estimate is approximately 97% red maple, 1% yellow birch and 1% ash. Black cherry log volume estimate is approximately 44% sugar maple.
