4. **Waste tonnage and leachate reports** – Miller explained the report components and reviewed the waste volume and leachate reports for the Committee. Garbage volume is off about 32% from major haulers and down 29% as a component of all waste categories over the same period last year. Miller explained that Advanced Disposal's volume is down 80% from what they brought in the previous year and they only occasionally bring in local roll off containers and paper mill fly ash as they continue to use their own facility in Wisconsin Rapids. He said B&B Containers has been hauling in since late February and their volume has increased, especially in the last month.

   Leachate production again is trending lower in the year to year comparison with 1,074,125 fewer gallons produced for the year to date than the previous year and 668,124 fewer gallons brought to the treatment plants. This equates to a savings of about $24K in hauling and treatment costs from the previous year. M/S – Hafeman/Vander Sanden to approve the reports and to place them on file. Motion carried; all ayes.

5. **Financial Reports** – Miller went through Statement of Operations and Cash Flow Statements for the month of March and Year to Date for 2016.
