**Cutting Instructions:**

Contract available for inspection

1. Clear cut area: cut all living trees greater than 1 inch in diameter except for oak, butternut, black ash, spruce, tamarack, pine, cedar, cherry, and hemlock. Do not residual cut non-merchantable trees in low wet areas and drainages. Selection harvest area: cut all ironwood, all merchantable aspen, all merchantable fir, all merchantable white birch, and orange paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
2. All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
3. Any roadwork will require prior approval of the Lincoln County Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
4. Logging activity will be prohibited from April 15 to July 15 of each year to reduce the risk of introducing and/or spreading oak wilt.
5. Wheeled or tracked equipment is prohibited in the restricted equipment zone (REZ) unless agreed upon in writing. Biomass harvesting is prohibited within the REZ.
6. Special care must be taken to limit damage to advanced regeneration.
7. In order to protect advanced regeneration, whole tree skidding with tops attached will be subject to field approval.
8. Garlic Mustard has been found on some of the woods roads leading to and along the sale(see map). Soil disturbances must be kept to a minimum and areas that have Garlic Mustard must be harvested last in order to help slow the spread of invasive species.
9. Ingress and egress to this sale is the responsibility of the contractor.
10. Permission must be granted by the Lincoln County Forestry Department to use the snowmobile trail from December 1 to March 31. Ample snow cover must be maintained to allow safe snowmobile operation.
11. Mixed hardwood pulp weight estimate is approximately 8% white birch. Mixed hardwood sawlog volume estimate is approximately 87% white ash and 12% white birch. Red Oak sawlog volume estimate is approximately 25% hard maple.
