**Cutting Instructions:**

Contract available for inspection

1. Clearcut area: cut all living trees greater than 1 inch in diameter except for oak, butternut, black ash, spruce, tamarack, pine, cedar, cherry and hemlock. Do not residual cut non-merchantable trees in low wet areas and drainages. Selection harvest area: cut all ironwood, all merchantable aspen, all merchantable fir, and orange paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
2. All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
3. Any roadwork will require prior approval of the Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
4. Gates/berms removed or damaged by contractor must be restored to original or better condition when sale becomes inactive and upon completion.
5. Wheeled or tracked equipment is prohibited in the restricted equipment zone (REZ) unless agreed upon in writing. Biomass harvesting is prohibited within the REZ.
6. Permission must be granted by the Forestry Department to use the snowmobile trail from December 1 to March 31. Ample snow cover must be maintained to allow safe snowmobile operation.
7. Special care must be taken to not damage or disturb survey markers.
8. In order to protect advanced regeneration, whole tree skidding with tops attached is subject to field approval.
9. Special care must be taken to limit damage to advanced regeneration.
10. Mixed hardwood pulp weight estimate is approximately 16% white birch pulp. Mixed hardwood log estimate is approximately 48% white ash, 26% basswood, 21% white birch and 4% red maple.
