Total estimated value of accepted bid					39,148.25

Cutting Instructions:

Contract available for inspection

1. Selection harvest area: cut all ironwood, all merchantable aspen, all merchantable fir, all merchantable white birch and orange paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
2. All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
3. Any roadwork will require prior approval of the Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
4. Wheeled or tracked equipment is prohibited in the restricted equipment zone (REZ) unless agreed upon in writing. Biomass harvesting is prohibited within the REZ.
5. Whole tree skidding with tops attached will be subject to field approval in order to protect advanced regeneration.
6. Special care must be taken to limit damage to advanced regeneration.
7. Logging activity will be prohibited from April 15 to July 15 of each year to reduce the risk of introducing and/or spreading oak wilt.
8. Garlic Mustard has been found in one location on the ATV trail adjacent to the sale area (see timber sale map). Soil disturbances in this area must be kept to a minimum.
9. Mixed hardwood pulp weight estimate is approximately 9% white birch and less than 1% aspen. Basswood pulp weight estimate is approximately 3% fir. Mixed hardwood log volume estimate is approximately 25% red maple, 25% basswood, 25% white ash and 24% white birch. Red oak log volume estimate is approximately 30% sugar maple.
