Total estimated value of accepted bid					<u>52,646.90</u>

**Cutting Instructions:**

Contract available for inspection

1. Selection harvest area: cut all ironwood, all merchantable aspen, all merchantable white birch, fir containing three (3) or more merchantable pulp sticks and orange paint marked trees. Cut only orange paint marked trees within the restricted equipment zones (REZ's). Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
2. All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
3. Any roadwork will require prior approval of the Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
4. Gates/berms removed or damaged by contractor must be restored to original or better condition when sale becomes inactive and upon completion.
5. Wheeled or tracked equipment is prohibited in the (REZ) unless agreed upon in writing. Biomass harvesting is prohibited within the REZ.
6. Logging activity will be prohibited from April 15 to July 15 of each year to reduce the risk of introducing and/or spreading oak wilt.
7. Whole tree skidding with tops attached will be subject to field approval in order to protect advanced regeneration.
8. Special care must be taken to limit damage to advanced regeneration.
9. Mixed hardwood pulp weight estimate is approximately 10% white birch and 1% aspen. Mixed hardwood log volume estimate is approximately 82% white ash, 10% white birch, 3% red maple, 3% yellow birch and 1% black ash.

Cracked Hive Job
