Total estimated value of accepted bid			<u>60,968.00</u>

Cutting Instructions:

Contract available for inspection

1. Clear cut harvest area: Cut all living trees greater than 1 inch in diameter except for oak, black ash, spruce, tamarack, pine, cedar, cherry, non-merchantable balsam fir, hemlock and yellow paint marked trees. Non-merchantable balsam fir may be cut for operational purposes. Do not residual cut non-merchantable trees in low wet areas and drainages. Selection harvest area: Cut all ironwood, all merchantable aspen, balsam fir containing three or more merchantable pulp sticks, and orange paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.

2. All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.

3. Any roadwork will require prior approval of the Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.

4. Gates/berms removed or damaged by contractor must be restored to original or better condition when sale becomes inactive and upon completion.

5. Mixed hardwood pulp weight estimate is approximately 31% white birch. Mixed hardwood sawlog volume estimate is approximately 54% red maple and 45% white birch.
