Total estimated value of accepted bid			56,444.00

Cutting Instructions:

Contract available for inspection

1. Clear cut area: cut all living trees greater than 1 inch in diameter except for oak, butternut, black ash, spruce, tamarack, pine, cedar, cherry, balsam fir, hemlock and yellow paint marked trees. Do not residual cut non-merchantable trees in low wet areas and drainages. Selection harvest area: cut all ironwood and orange paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
2. All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
3. Any roadwork will require prior approval of the Lincoln County Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
4. Ingress and egress to this sale is the responsibility of the contractor.
5. Gates/berms removed or damaged by contractor must be restored to original or better condition when sale becomes inactive and upon completion.
6. Special care must be taken to not damage or disturb survey markers.
7. In order to protect advanced regeneration, whole tree skidding with tops attached will be subject to field approval within the selection harvest area.
8. Special care must be taken to limit damage to advanced regeneration within the selection harvest area.
9. Mixed hardwood pulp weight estimate is approximately 41% white birch and less than 1% basswood. Mixed hardwood sawlog volume estimate is approximately 58% white birch, 19% red maple, 10% hard maple, 10% basswood, 2% white ash and less than 1% elm.
