Total estimated value of accepted bid			56,242.60

Cutting Instructions:

Contract Available for Inspection

1. Cut all ironwood and orange paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
2. All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
3. Any roadwork will require prior approval of the Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
4. Ingress and egress to this sale is the responsibility of the contractor.
5. Gates/berms removed or damaged by contractor must be restored to original or better condition when sale becomes inactive and upon completion.
6. Wheeled or tracked equipment is prohibited in the restricted equipment zone (REZ) unless agreed upon in writing. Biomass harvesting is prohibited within the REZ.
7. Special care must be taken to not damage or disturb survey markers.
8. In order to protect advanced regeneration, whole tree skidding with tops attached will be subject to field approval.
9. Special care must be taken to limit damage to advanced regeneration.
10. A portion of this sale is a red pine thinning and Lincoln County's Annosum Root Rot Policy must be followed during the harvest.
11. Mixed hardwood pulp weight estimate is approximately 9% white birch and 3% red oak. Balsam fir pulp weight estimate is approximately 37% hemlock. Mixed hardwood sawlog volume estimate is approximately 15% red maple, 51% white birch, 32% white ash and less than 1% yellow birch and black ash. Hard maple sawlog volume estimate is approximately 26% red oak.
