10-OR Red Oak Sawlogs	MBF 98.00	525.00	51,450.00
Total estimated value of accepted bid			88,240.00

Cutting Instructions:**Contract Available for Inspection**

1. Cut all ironwood and orange paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
2. All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
3. Any roadwork will require prior approval of the Lincoln County Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
4. Ingress and egress to this sale is the responsibility of the contractor.
5. Logging activity will be prohibited from April 15 to July 15 of each year to reduce the risk of introducing and/or spreading oak wilt.
6. Gates/berms removed or damaged by contractor must be restored to original or better condition when sale becomes inactive and upon completion.
7. Special care must be taken to not damage or disturb survey markers.
8. In order to protect advanced regeneration, whole tree skidding with tops attached will be subject to field approval.
9. Special care must be taken to limit damage to advanced regeneration.
10. Garlic Mustard has been found on a woods road within the sale: (see map) Soil disturbances on these woods roads must be kept to a minimum in order to help slow the spread of this invasive species. NE1/4 NW1/4 Section 36 T34N R7E will be cut last.
11. Mixed hardwood pulp weight estimate is approximately less than 1% white birch. Mixed hardwood sawlog volume estimate is approximately 97% white ash, 1% black ash, and less than 1% red maple, yellow birch, white birch and butternut. Red oak sawlog volume estimate is approximately 3% hard maple.
