Total estimated value of accepted bid			86,223.50

Cutting Instructions:

Contract available for inspection

1. Clear cut area: cut all living trees greater than 1 inch in diameter except for oak, butternut, black ash, spruce, tamarack, pine, cedar, cherry, hemlock, balsam fir and yellow paint marked trees. Do not residual cut non-merchantable trees in low wet areas and drainages. Selection harvest area: cut all ironwood, all merchantable aspen, all merchantable white birch and orange paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
2. All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
3. Any roadwork will require prior approval of the Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
4. Ingress and egress to this sale is the responsibility of the contractor.
5. Gates/berms removed or damaged by contractor must be restored to original or better condition when sale becomes inactive and upon completion.
6. Permission must be granted by the Forestry Department to use the snowmobile trail from December 1 to March 31. Ample snow cover must be maintained to allow safe snowmobile operation.
7. Special care must be taken to limit damage to advanced regeneration.
8. In order to protect advanced regeneration, whole tree skidding with tops attached will be subject to field approval.
9. Mixed hardwood pulp weight estimate is approximately 2% white birch. Mixed hardwood sawlog volume estimate is approximately 46% white ash, 32% red maple, 10% hard maple, 10% basswood and less than 1% white birch and elm.
