- 1) Clear cut area cut all living trees greater than 1 inch in diameter except for spruce, tamarack, pine, cedar, hemlock, balsam fir, apple, and hawthorn. In the shelterwood and selection harvest areas cut all ironwood and orange paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
- 2) All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
- 3) Any roadwork will require prior approval of the Lincoln County Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
- 4) Ingress and egress to this sale is the responsibility of the contractor.
- 5) Logging activity will be prohibited from April 15 to July 15 of each year to reduce the risk of introducing and/or spreading oak wilt.
- 6) Contractor is responsible for obtaining permission to cross private property.
- 7) Special care must be taken to not damage or disturb survey markers.
- 8) In order to protect advanced regeneration whole tree skidding with tops attached will be subject to field approval.
- 9) Special care must be taken to limit damage to advanced regeneration.
- 10) Gates/Berms removed or damaged by the contractor must be restored to original or better condition when the sale becomes inactive and upon sale completion.
- 11) Hemlock pulp weight estimate is approximately 10% balsam fir. Mixed hardwood sawlog volume estimate is approximately 57% white ash, 14% basswood, 14% red maple, and 14% white birch. Red oak sawlog volume estimate is less than 1% hard maple.

Contract Available for Inspection

- 1) Aspen Clear Cut Areas: cut all living trees greater than 1 inch in diameter except for oak, butternut, spruce, pine, tamarack, cedar, cherry, hemlock, balsam fir, apple, and hawthorn. Do not residual cut non-merchantable trees in low wet areas and drainages. Red Pine Clear Cut Area: cut all living trees except for yellow paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
- 2) All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
- 3) Any roadwork will require prior approval of the Lincoln County Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
- 4) Ingress and egress to this sale is the responsibility of the contractor.
- 5) Contractor is responsible for obtaining permission to cross private property.
- 6) Special care must be taken to not damage or disturb survey markers.
- 7) Gates/Berms removed or damaged by the contractor must be restored to original or better condition when the sale becomes inactive and upon sale completion.
- 8) Mixed hardwood pulp weight estimate contains approximately: 1000 board feet of red maple sawlog volume.

Contract Available for Inspection

- 1) Cut all living trees greater than 1 inch in diameter except for pine, hemlock, cedar, oak, and yellow paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
- 2) All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
- 3) Any roadwork will require prior approval of the Lincoln County Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
- 4) Ingress and egress to this sale is the responsibility of the contractor.
- 5) Special care must be taken to not damage or disturb survey markers.
- 6) This sale is wet and will require frozen ground/snow covered logging conditions.

Contract Available for Inspection

- 1) Clear cut area: Cut all living trees greater than 1 inch in diameter except for oak, red maple, yellow birch, spruce, tamarack, pine, cedar, cherry, and hemlock. In the seed tree harvest area cut all living trees greater than 1 inch in diameter except for oak, pine, cedar, cherry, hemlock, and yellow paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
- 2) All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
- 3) Any roadwork will require prior approval of the Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
- 4) Pockets of advanced regeneration receiving full sun light may be left uncut at the discretion of the Lincoln County Forestry Department.
- 5) Permission must be granted by the Forestry Department to use the snowmobile trail from December 1 to March 31. Ample snow cover must be maintained to allow safe snowmobile operation.
- 6) Special care must be taken to not damage or disturb survey markers.
- 7) Gates/Berms removed or damaged by the contractor must be restored to original or better condition when the sale becomes inactive and upon sale completion.
- 8) Mixed hardwood pulp weight estimate is approx. 67% black ash, 20% white birch, 11% red maple and 1% elm. Mixed hardwood sawlog volume estimate is approx. 80% black ash, 15% white birch and 1% red maple.
- 9) Ingress and egress to this sale is the responsibility of the contractor.
