Contract Available for Inspection

- 1) Clear cut area: Cut all living trees greater than 1 inch in diameter except for oak, red maple, yellow birch, spruce, tamarack, pine, cedar, cherry, and hemlock. In the seed tree harvest area cut all living trees greater than 1 inch in diameter except for oak, pine, cedar, cherry, hemlock, and yellow paint marked trees. Snags and dead trees are only to be cut if leaving them standing presents a safety hazard to the harvesting operation.
- 2) All logging damage/debris must be corrected/removed from trails, woods roads, and grass openings daily and prior to sale closure.
- 3) Any roadwork will require prior approval of the Forestry Department and will follow BMP guidelines. Contractor is responsible for installing water bars and/or using other soil stabilizing techniques where appropriate.
- 4) Pockets of advanced regeneration receiving full sun light may be left uncut at the discretion of the Lincoln County Forestry Department.
- 5) Permission must be granted by the Forestry Department to use the snowmobile trail from December 1 to March 31. Ample snow cover must be maintained to allow safe snowmobile operation.
- 6) Special care must be taken to not damage or disturb survey markers.
- 7) Gates/Berms removed or damaged by the contractor must be restored to original or better condition when the sale becomes inactive and upon sale completion.
- 8) Mixed hardwood pulp weight estimate is approx. 67% black ash, 20% white birch, 11% red maple and 1% elm. Mixed hardwood sawlog volume estimate is approx. 80% black ash, 15% white birch and 1% red maple.
- 9) Ingress and egress to this sale is the responsibility of the contractor.
