

## **LINCOLN COUNTY FORESTRY, LAND AND PARKS DEPARTMENT**

To the Honorable Board of Supervisors  
Lincoln County, Wisconsin

The following is a report of the various activities of the Lincoln County Forestry, Land and Parks Department from January 1, 2015 through December 31, 2015.

OUR 2015 COUNTY FOREST consists of 100,843.05 acres.

2015 TIMBER SALES REVENUE TOTALED \$1,973,804.17. This revenue is distributed as follows: \$195,862.51 (10%) to Towns with County Forest Lands; \$391,725.04 (20%) to the County General Fund; and \$1,386,216.62 (70%) to the County Forestry Fund. Any unused budgeted funds and surplus revenues are transferred to the County CIP Program after the annual audit is completed.

DURING THE YEAR, 31 TIMBER SALES WERE SOLD with an estimated value of \$1,657,823.04.

SEVENTEEN BOUGH PERMITS WERE ISSUED @ \$100.00 per permit = \$1,700.00.

GRANT REVENUES administered by the Forestry, Land & Parks Department during 2015 totaled \$523,234.47. Of this amount, \$13,899 was provided by Lincoln County for those grants requiring cost sharing.

REVENUE FROM WOOD SALES AND FIREWOOD PERMITS DURING 2015 TOTALED \$1,450.00. Two wood sales (\$40.00) and seventy-two 30-day permits (\$1,080.00) were issued. Twenty-two permits (\$330.00) were extended.

### TREE PLANTING/SITE PREP/BIOMASS:

Fill-in planting of approximately 6,000 2-year old red pine seedlings on the south half of a 40 acre site planted in 2014 in the Town of Wilson was done by the Lincoln County Crew.

Approximately 31 acres of planting site prep and 14 acres of swamp conifer site prep was completed by logging contractors as a requirement of their timber sale contract.

Biomass was utilized from approximately 2 timber sales, totaling \$ 1090.44.

### TIMBER STAND IMPROVEMENT (TSI):

Approximately 798 acres of aspen release was completed in aspen regeneration areas by logging contractors as a requirement of their timber sale contract.

Approximately 7 acres of red pine seedlings were released with brush saws by the Lincoln County Crew.

SURVEYING: All of surveying done in 2015 was in conjunction with the Lincoln County Surveyor.

In Section 17 of T34N R4E, T-style fence posts were placed at various points along County Forest property boundary for the north and west lines of the W1/2 NW1/4 totaling approximately 3/4 mile of boundary.

In Section 19 of T34N R4E, T-style fence posts were placed at various points along County Forest property boundary for the north line of the NE1/4 NE1/4 totaling approximately 1/4 mile of boundary. A Monument was set at the N1/16NE.

In Section 21 of T34N R8E, T-style fence posts were placed at various points along County Forest property boundary for the north line of the SE1/4 SE1/4 totaling approximately 1/4 mile of boundary. A monument was set at the C1/16SE.

In Section 3 of T33N R7E, T-style fence posts were placed at various points along County Forest property boundary for the south and west lines of the NE1/4 NE1/4 totaling approximately 1/2 mile of boundary. Monuments were set at the C1/16NE and E1/16NE.

In Section 7 of T35N R6E, T-style fence posts were placed at various points along County Forest property boundary for the east line of the E1/2 NE1/4 totaling approximately 1/2 mile of boundary.

COUNTY FOREST ROAD AIDS PROGRAM: We continued our County Forest road maintenance program including graveling, installing culverts, improving drainage, right-of-way brushing and regular grading and snowplowing of roads. In 2015 we received approximately \$313.87/mile for maintaining 27.25 miles of roads for a total of \$8,553.08. A GIS layer was developed several years ago showing the locations of culverts on our gas tax roads and these structures were identified by diameter and length, prioritized and placed on a replacement schedule. All high priority culverts have been replaced and we are now focusing our efforts on roadside brushing and ditching. Roadside brushing was conducted on the entire 4.55 mile section of Wildwood Ave

COUNTY CONSERVATION AND WILDLIFE HABITAT FUNDS FOR 2015: We continued work on our County Conservation Aids grant for improving lake access by completing the improvement work on the Horn, Bus and Tahoe Lake boat landings. Work on the Lost Lake access and boatlanding is scheduled for 2016. Wildlife Habitat funds were used for the mowing of wildlife openings and trails. The development of parking lots for hunters in the Newwood Block will continue in 2016.

PRAIRIE DELLS SCENIC AREA: The Forestry, Land and Parks Committee accepted the donation of a 5-acre parcel bordering the Prairie Dells Scenic Area. This donation will allow our department to enhance the recreational opportunities in this location and will also prevent future developments from occurring adjacent to this scenic area.

THE UNDERDOWN RECREATION AREA is available for a variety of uses year round. Groomed and tracked X-C ski trails, snowshoe trails, horse trails, single track bike trails, fat bike trails, hiking trails, and a snowmobile/winter ATV trail are all mapped and signed in the Underdown. Season trail passes were made available to the public to offset the cost of these trails. Several small bridges were constructed by the bike club on the single track bike trail where wet areas are crossed. Signing and trail improvements were also completed on several trail segments by this club. New gates were installed in

various locations to accommodate horse drawn wagon events for the Underdown Horse Club. The site prep work was done and a concrete slab poured for a new shelterhouse south of the parking lot at the trail head. Construction of this facility will take place in 2016. A new groomer for the ski trail that was purchased using donated funds continued to be utilized. Several segments of Cross-County ski trail had trail signing improvements completed. An RTA grant was obtained for improvement work and maintenance of non-motorized trails in the Underdown. The amount awarded to Lincoln County under this grant was \$7,322.41 and we must match these dollars for a total project cost of \$14,644.82.

ORGANIZED AND/OR COMPETITIVE ACTIVITIES WERE CONDUCTED on the County Forest in the Underdown Recreation Area by the Underdown Horse Club and the Wisconsin Off Road Bike Association (WORBA) and in the Harrison Unit by the Harrison Hills ATV Club.

COUNTY PARKS ACTIVITIES: Regular maintenance of County parks and facilities was performed during 2015. We have been using non-lethal means in an integrated approach to control geese population issues at Tug Lake County Park. Improvements were made to the fascia of Shelterhouse A at Newwood Park and several new campfire rings were installed within our campground system

INVASIVE SPECIES: In 2007, a significant garlic mustard infestation was discovered in the Underdown Block of the County Forest and on adjacent private land. Our department took immediate action to try to control the spread of this invasive plant by conducting a search to find new infestations and applying herbicide where the plant was known to occur. Several other small, satellite colonies of this invasive plant have been found in other locations of the Underdown, Harrison and Wildwood Blocks.

In addition to Garlic Mustard, other invasive species have been discovered on County Forest property. Glossy Buckthorn, Japanese Barberry, Crown Vetch, Leafy Spurge and Japanese Knotweed have been found in areas of Underdown and Harrison. Steps are taken to control or eradicate these species when they are found. A GIS Layer is maintained to identify every known location of invasive plant species on the county forest. We will continue to monitor and treat known infestations while being observant for new species and infestations on the County Forest. The Forestry Department has provided training and publications to user groups of the County Forest and to townships within the county on how to identify invasive plant species so that they can assist our department with early detection and treatment.

LINCOLN COUNTY 5-YEAR OUTDOOR RECREATION PLAN was developed in conjunction with North Central Wisconsin Regional Planning, the City of Tomahawk, The City of Merrill, local townships and special interest groups. The Plan was approved by the Lincoln County Board of Supervisors on January 17, 2012 and is effective January 1, 2012 through December 31, 2016. We continue to implement our current plan. We will update the current plan in 2016.

LINCOLN COUNTY ACCESS PLAN: Restoration work to the Horn, Bus and Tahoe Lake boat landings was completed, improvements to our primary gas tax roads and to the Underdown trailhead and recreational trails were made and construction of a shelterhouse on the Ice Age Trail by Dog Lake was completed. In addition, development work for 3.7 miles of new summer ATV/UTV trail was conducted in 2015. A grant to complete the restoration of the Krueger Firelane was secured and utilized. Continued work on acquiring access permits for private individuals that access their lands through the County Forest. Issued temporary access permits for individuals hauling forest products from private lands across the County Forest. A Recreation Officer continued working on the County Forest and helped reduce vandalism and restore order to our public lands and recreational facilities.

LINCOLN COUNTY'S 2014-2015 SNOWMOBILE TRAIL MAINTENANCE PROJECT was approved for \$78,437.50 consisting of 313.75 miles of trail @ \$250/mile. Seven clubs in the county were contracted to maintain the total number of funded miles in Lincoln County. In addition, supplemental maintenance funding was approved at 100% statewide making the portion paid out to Lincoln County's clubs an additional \$56,572.92.

ATV PROGRAM: We received trail maintenance aids of \$20,564.00 consisting of 204.1 miles of winter trails @ \$100/mile and \$26,675.00 consisting of 44.4 miles of summer trails at \$600/mile as well as maintenance aids of \$4,440.00 consisting of 44.4 miles of summer UTV trail. Five snowmobile clubs contracted to maintain the funded miles of winter ATV trail in the county. These trails are part of the county's snowmobile trail system. Our summer ATV mileage traverses through the Harrison Hills and links up with Langlade and Oneida County Trails as well as the communities of Gleason, Harrison, and the Pine Lake area. Lincoln County maintains the summer ATV trail system, and contracts with the Harrison Hills ATV Club to assist with brushing and signing. We continued to implement an emergency signing system for the summer trail network which is compatible with the County's 911 system. Worked with ATV clubs in the Somo, Wilson, and Spirit Falls areas to identify possible sites for an ATV trail/route link. Participated in the development of the Northern Wisconsin ATV/UTV Council to assist organizations in enhancing ATV/UTV and other recreational opportunities in our area. Our department acquired funding for and worked on the development of 3.7 miles of new summer ATV trail north of Pine Lake in Harrison. Lincoln County continues to participate in the permanent Utility Terrain Vehicle program which began on July 1, 2012.

ICE AGE TRAIL: Several sections of the Ice Age Trail were relocated and/or reconstructed with the majority of the work being done in the Harrison area. A small shelter was constructed along the trail by Dog Lake using donated funds. We continue to work with our local chapter to provide quality facilities and address issues as they arise.

HARRISON FLOWAGE DAM: An owner-responsible inspection of the Harrison Dam is required every 10 years in order to keep the dam in conformance with state law. The dam was inspected in 2014 by Becher-Hoppe Associates and several deficiencies were identified to bring the dam in compliance with state code. These deficiencies were all completed in 2015 to include replacing the stoplogs in the spillway; brushing the toeslope of the dike; performing concrete repair work on the catwalk and erecting a dam warning sign.

KRUEGER FIRELANE: In 2015, the final phase of improvement work was completed to the Krueger Firelane. A \$34,000 was obtained in 2013, to ditch and crown and apply pit run gravel to the firelane base. In 2015, an additional \$35,000 grant was utilized to place a 6 inch lift of granite onto the road surface to complete the improvement project.

BEAVER PROGRAM: The Lincoln County Forestry and Highway Departments continued to work with USDA APHIS regarding beaver problems on the Lincoln County Forest and on the County road system.

FOREST CERTIFICATION: The Lincoln County Forest became SFI certified in March, 2005 and FSC certified in July, 2007. We worked on implementing necessary changes on the County Forest required by SFI and FSC forest certification.

LAND SOLD, RATIFIED, CONFIRMED AND APPROVED by the Lincoln County Board in 2015 included 8 tax deed parcels that were sold for \$64,203.07 and 1 county owned parcel sold for \$51,510.00.

DEPARTMENT SAFETY PLAN: Continued development and implementation of our department safety plan. The Lincoln County Public Works Safety Group (Highway, Forestry, Solid Waste and Maintenance Departments) are under contract with Alpha Terra Science to implement this plan. Programs are in place for hazardous communication, control of hazardous energy, confined space entry and excavation safety, emergency action and fire prevention plan, personal protective equipment, occupational noise exposure and bloodborne pathogens. Alpha Terra has set up a webpage for the user groups above to manage and maintain safety records. As part of our county safety plan, the county implemented a group made up of employees as a first response team. This team is trained in CPR and first aid and will respond to any medical emergency to make the work place safer for employees and the public.

DNR WILDLIFE MANAGEMENT: 2015 Accomplishments on the Lincoln County Forest submitted by Thomas Carlson, DNR Wildlife Technician.

:

**Flowages:**

Water levels and wildlife were actively monitored on Camp 26, Trapper Morrison, and Coffee Creek Flowages in 2015. Repairs were made to the earthen dams on Camp 26, Trapper Morrison and Coffee Creek flowages to address damage caused by muskrats and to remove old beaver debris for past activity. Beaver have recently moved back into the Trapper Morrison flowage and have been clogging the water control structure. Wildlife Management has been working to recruit local trappers to help address the beaver issue.

Coffee Creek Flowage had beaver issues this past summer but the issue was resolved.

Camp 26 Flowage has continued to see an abundance of wild rice with a slight increase over last year's crop.

**Wildlife Openings:**

Maintenance was performed on openings in the Towns of Somo, Wilson and Tomahawk. A total of 92 openings were inspected totaling approximately 100 acres. 86 opening were mowed, 6 were left untreated due to equipment breakdowns. The remaining six openings will be mowed next year (2016) and included in the next rotation in 2019. All trails leading into the openings were mowed.

Mowing is performed with the objective of setting back woody encroachment and promoting herbaceous (grass/forb) cover to benefit deer, woodcock, ruffed grouse, turkeys and many other wildlife species.

Openings are mowed on a 4 year rotation.

**Wildlife Surveys:**

Wildlife surveys in 2015 that were conducted on the Lincoln County Forest included woodcock, ruffed grouse, turkey, bear, deer, and furbearer. Grouse and turkey surveys include spring breeding activity as well as brood counts. Ruffed grouse numbers were slightly up from 2014, indicated by spring drumming activity and later confirmed by fall hunter success. Brood Surveys and observations throughout the summer indicated that there was a very successful recruitment to the local turkey population. Summer deer observations revealed an increase in the number of fawns probably due to the mild winter and early spring green up. Bear bait visitation numbers were consistent with previous years. Furbearer and waterfowl surveys were also completed according to schedule.

EQUIPMENT PURCHASES IN 2015: 2015 John Deere X530 Lawn Tractor.

Respectfully submitted,  
Kevin Kleinschmidt  
Forest Administrator
