CAREGIVER SERVICES

If you assist someone with their daily needs, such as medications, bathing, meal preparation, etc. you are a caregiver. Whether you're caring for a friend, family member, or neighbor, we can connect you with information, resources, and support to make your role as a caregiver a little easier.

CAREGIVER SUPPORT COORDINATORS

We have staff members available to meet with you and review the different options for your unique situation. Whether you're looking for information on support groups, respite care options, helping someone with personal care, or if you're simply looking for ways to take better care of yourself, our Caregiver Support Coordinators can help. They can provide information, support and resources to you over time as your role as a caregiver changes and evolves. Caregiver Support Coordinators can meet with you in your home or our office to discuss challenges you're experiencing and help identify workable solutions, share information about resources that can provide support, and help you connect with respite care and other in-home care options.

POWERFUL TOOLS FOR CAREGIVERS

Powerful Tools for Caregivers teaches caregivers how to take care of themselves while caring for another person. Participants learn about "tools" to become a better caregiver, including strategies to:

- Reduce feelings of stress, guilt, anger and depression
- Manage time, set goals, and solve problems
- Master caregiving transitions
- Make difficult decisions, and
- Communicate effectively with the person needing care, family members, doctors and paid helpers

Whether you're caring for a spouse, partner, parent or friend who lives at home or in a skilled care facility, this class will help you cope with the challenges that come with your role as a caregiver.

ALZHEIMER'S FAMILY CAREGIVER SUPPORT PROGRAM

This program is funded through the State to provide caregivers with ongoing support and reimbursement of some of the expenses related to caring for someone with dementia in a home setting. Reimbursable services are those which are necessary to maintain a person with dementia in the community. Typical services include in-home help, respite care, adult day care and some supplies that assist the caregiver in providing care.

NATIONAL FAMILY CAREGIVER SUPPORT PROGRAM

Limited financial assistance is available annually to individuals providing care to others. Call us for more information about program eligibility and status of funds.

DEMENTIA SERVICES

DEMENTIA CARE SPECIALIST:

The Dementia Care Specialist (DCS) will meet with individuals and families to help them better understand dementia. Discussion may include early detection, symptoms, progression, and how the person may be impacted over time. The DCS will participate in collaborative planning related to current care needs and anticipated future care needs. Strategies and tools will be offered to improve the quality of life of the person living with dementia, as well as addressing behavioral changes. Stress reduction and caregiver support options will also be identified and encouraged as needed.

MEMORY SCREENS:

The ADRC offers free, confidential memory screens. Memory screens are suggested for anyone concerned about and/or experiencing cognitive or memory changes. The screen is highly recommended for those at risk due to family history of dementia, and for those seeking to simply monitor their brain health. In general, early detection and treatment result in better outcomes.

DEMENTIA FRIENDS:

Dementia Friends USA is part of a global movement that is challenging the way people think, act, and talk about dementia. Anyone can be a Dementia Friend. Everyone has a part to play in creating dementia friendly communities! A Dementia Friend is someone who attends an informational session, learns about what it's like to live with dementia, and then turns that awareness and understanding into action.

DEMENTIA FRIENDLY BUSINESS TRAINING:

Dementia Friendly Business Training works to create 'Dementia Friendly Communities' throughout Central Wisconsin. A 'Dementia Friendly Community' is one in which local businesses, organizations, churches, and community groups become more aware and make simple changes that help a person living with dementia, or their caregiver, feel welcome and safe. The free training teaches about dementia and how to better serve those living with dementia. Dementia Friendly businesses will have access to resources and information about dementia and how it may affect their customers, clients, or participants. Culture, awareness, and community collaboration are keys to welcoming those living with dementia and their caregivers.

DEMENTIA LIVE:

An opportunity for participants to experience a simulation comparable to what it might be like to live with dementia and cognitive loss. The experience is offered by trained Dementia Care Specialists. Dementia Basics: Learn about dementia! This class is intended for individuals, family members, caregivers, and anyone else interested in learning more about dementia. Whether you are adjusting to a new diagnosis or hoping to be able to support someone else better, this class will give you some basic knowledge about dementia. Areas that will be covered include; how dementia is defined, the expectations for normal aging, how dementia is different than normal aging, the different types of dementia, how to support someone who is living with dementia, and how to plan for the future. Classes are currently offered at the ADRC offices in Antigo, Merrill, Wausau, Marshfield, and Wisconsin Rapids. In addition, there is also a virtual class option. Additional classes may be available in the region as requested.

BRAIN HEALTH BASICS:

Learn about brain health! This class is intended for anyone interested in learning more about taking care of the brain. Whether you are adjusting to your later life career, recently retired, or enjoying your twilight years, it is never too early to learn how to care for your brain. This class will identify important options and choices in life that promote a healthy brain. Classes are currently offered at the ADRC offices in Antigo, Merrill, Wausau, Marshfield, and Wisconsin Rapids. In addition, there is also a virtual class option. Additional classes may be available in the region as requested.

SAVVY CAREGIVER:

7 week class for Caregivers of people living with dementia. The class will help Caregivers focus on themselves, while also increasing their knowledge about dementia, bolstering their skills as a Caregiver for someone living with dementia, and helping the Caregivers improve their outlook and attitude about their confidence in caregiving.

NUTRITION PROGRAMS

Balanced nutrition is so important to maintain independence and good health. Many older adults do not get the nutrition they need for a variety of reasons such as:

- It is difficult to cook for only one or two persons
- They simply do not feel like cooking
- There are physical and/or emotional reasons they cannot or do not prepare food

The ADRC-CW offers Senior Nutrition Program services to help older adults get good nutrition. Our meals meet 1/3 of the daily nutritional needs for older adults.

HERE ARE SOME OF THE SERVICES WE OFFER:

SENIOR DINING

Join us for delicious meals at many locations throughout our communities. Cooking ability or income/assets are not part of being eligible!

Who is eligible for Senior Dining?

Anyone age 60 or older, and their spouse.

A disabled individual who lives at home with an eligible older individual who participates in the program.

A person with a disability, under age 60, who lives in senior housing where Senior Dining is provided.

During the Pandemic: Call to ask about meal options.

See the Food-Home Delivered Meals/Senior Dining section of this Directory for more details.

CAFÉ 60

Café 60 is a convenient nutrition program for mobile people age 60 and older. It is offered in rural Marathon County only. With this dining option participants present their Café 60 Coupon at a local participating restaurant and choose from a variety of menu choices that are program-approved. During the pandemic: carry-out meals are available. See the Food-Home Delivered Meals/Senior Dining section of this Directory for more details.

MEALS ON WHEELS

Delivered meals are helpful when someone is not easily able to prepare balanced meals for themselves. Meal delivery also eases the caregiving burden for spouses, family, and friends. Every meal delivery provides a friendly “check-in” opportunity.

Meals on Wheels eligibility includes all of the following: being age 60 or older; being mostly homebound; and being unable to prepare balanced meals.

A spouse of an eligible person or a disabled person who resides at home with an older eligible individual participating in the program can also participate. Before meal delivery begins, a home visit from staff of the Aging & Disability Resource Center of Central Wisconsin is completed to determine eligibility. Each request for Meals on Wheels is evaluated on an individual basis. See the Food-Home Delivered Meals/Senior Dining section of this Directory for more details.

“Happy with it (therapy) they are working with me. Getting to the goals I set for myself.”

“Everybody’s treated with respect. In my book that’s the biggest thing.”

- Orville S.

“My mother was a resident at Edgewater Haven for 2 ½ years... During that time she received care...lovingly, with dignity... and quality of life...it is absolutely amazing how kindly the staff treated her...she always had a smile whenever we visited. Her stay there definitely changed our attitude towards ‘nursing home’ care. The staff/facility is definitely the best in the area...”

“Thank you Edgewater...”

WMC is an equal opportunity provider and employer.

In our care, they are family.

Our goal is to create an environment that affords our residents the opportunity to be a partner in the care they receive, to develop trusting relationships with our caregivers, and to reach their highest level of independence. Our teams of dedicated healthcare professionals strive to deliver quality care with compassion.

MARSHFIELD
HEALTH SERVICES

We pride ourselves on being the cornerstone of healthcare in the communities we serve.

In addition to 24/7 admission and care plans designed to serve each of our residents' individual needs, our five-star center offers a spacious gym and home-like atmosphere to our residents.

THREE OAKS
HEALTH SERVICES

We feature private rooms for our short-term rehabilitation patients. In addition, our cozy memory care unit serves residents with various diagnosis of dementia, including Alzheimer's. We are located in a quiet setting on the north edge of Marshfield next to the Hamus Nature Preserve and Recreation Area.

COMMUNITY LIVING OPTIONS

The following describes the various options available to individuals who need supportive services in their place of residence. Choice of a suitable alternative depends on a number of factors, including lifestyle preferences, the level of support needed, cost, and the options available in a particular community. Some of the options are subject to specific government regulation, while others are not.

IN HOME CARE

Supportive home care services can be provided to individuals in their own home or apartment. Homemaker, chore services, Meals on Wheels, home health care, attendant care, and transportation are some of the services that make it possible for people with care needs to remain in their homes. These can be arranged through public social service agencies, purchased from private agencies, or provided by family and friends.

SENIOR AND DISABLED HOUSING/ INDEPENDENT LIVING APARTMENTS

This housing is multi-unit rental housing that is specially designed for, and marketed to elderly and disabled tenants. Most offer studio and/or one bedroom apartments and some have a recreation room or other common space for social gatherings. There may be a manager available to make referrals or organize events. Tenants may individually arrange for supportive services from outside providers, as with any in-home care. No license or special regulation is required for the facility.

ADULT FAMILY HOME

An adult family home is a residence where one to four unrelated adults live and receive meals, supervision, and personal care. Many adult family homes, especially those with only one or two paying residents, are private homes where elderly or people with disabilities live with a foster family. Adult family homes caring for one or two unrelated adults are certified by the county; homes caring for three or four residents are licensed and regulated by the state.

RESIDENTIAL CARE APARTMENT COMPLEX (RCAC)

RCACs combine apartment housing with supportive, personal and nursing services. Residents have their own apartments, including full bath and kitchen facilities, and retain control over their personal space, care decisions and daily routines. Services are individually tailored to each resident's capacities and preferences and are adjusted as necessary to avoid requiring people to move when their condition deteriorates with age. Facilities may provide up to 28 hours of service per resident per week. RCACs are either registered or certified. Certified facilities will be monitored by the state and eligible to receive Medical Assistance waiver funding, registered facilities will not.

COMMUNITY BASED RESIDENTIAL FACILITY (CBRFS)

Community Based Residential Facilities (CBRFs) are staffed group living arrangements that provide room, board, supervision and other supportive services to five or more adult residents. Typically, residents have either a private or shared sleeping room and share living, dining, and bathroom space with other residents of the facility. CBRFs are intended for people who cannot live independently but are neither acutely ill nor need extensive amounts of nursing care. Facilities vary in size from five residents to over 100. Some are houses, others are facilities. Some serve a frail elderly population; others serve people with disabilities, people with Alzheimer's disease, or a mixed group of residents. All CBRFs must be licensed by the state.

NURSING HOME

A nursing home is a healthcare facility which provides room, board, and 24 hour a day care. Residents may be admitted for a short-term respite or rehabilitation stays or for long-term care for chronic conditions. Nursing homes are licensed by the state. Most are also certified for Medicare and Medicaid, which provide public funds to cover the cost of care for eligible residents.

HOUSING-ADULT FAMILY HOMES

An adult family home is a residence where one to four unrelated adults live & receive meals, supervision, & personal care. Many adult family homes, especially those w/ only one or two paying residents, are private homes where elderly or people w/ disabilities live w/ a foster family. Adult family homes caring for one or two unrelated adults are certified by the county; homes caring for three or four residents are licensed & regulated by the state.

HOUSING-RESIDENTIAL CARE APARTMENT COMPLEX (RCAC)

RCACs combine apartment housing w/ supportive, personal & nursing services. Residents have their own apartments, including full bath & kitchen facilities, & retain control over their personal space, care decisions & daily routines. Services are individually tailored to each resident's capacities & preferences & are adjusted as necessary to avoid requiring people to move when their condition deteriorates w/ age. Facilities may provide up to 28 hours of service per resident per week. RCACs are either registered or certified. Certified facilities will be monitored by the state & eligible to receive Medical Assistance waiver funding, registered facilities will not.

HOUSING-COMMUNITY BASED RESIDENTIAL FACILITY (CBRFs)

Community Based Residential Facilities (CBRFs) are staffed group living arrangements that provide room, board, supervision & other supportive services to five or more adult residents. Typically, residents have either a private or shared sleeping room & share living, dining, & bathroom space w/ other residents of the facility. CBRFs are intended for people who cannot live independently but are neither acutely ill nor need extensive amounts of nursing care. Facilities vary in size from five residents to over 100. Some are houses, others are facilities. Some serve a frail elderly population; others serve people w/ disabilities, people w/ Alzheimer's disease, or mixed groups of residents. All CBRFs must be licensed by the state.

HOUSING-NURSING HOMES

A nursing home is a health care facility which provides room, board, & 24 hour a day care. Residents may be admitted for a short-term respite or recuperative stays or for long-term care for chronic conditions. Nursing homes are licensed by the state. Most are also certified for Medicare & Medicaid, which provide public funds to cover the cost of care for eligible residents.

ADVANCE DIRECTIVES

An advance directive is a legal document that allows you to make your health care desires and preferences known in the event that you are unable to make your own decisions due to becoming incapacitated.

An advance directive includes written instructions recognized under state law by which you communicate your health care preferences. There are many different terms used to describe advance directives. The written advance directives recognized by Wisconsin law are:

- **Power of Attorney for Health Care (POAHC)**
- **Declaration to Physicians (known in Wisconsin as Living Will)**

Completing either of these documents is voluntary. They are “valid” once they have been completed, properly witnessed and signed. It is important to know that you continue to make your own health decisions as long as you are able. A Power of Attorney for Health Care becomes effective or Activated when two physicians, or one physician and one psychologist, personally examine you and sign a certificate that you are “incapacitated” to make health care decisions. A Living Will becomes effective when you are either in a “persistent vegetative state” or have a terminal illness with death imminent. Two physicians must certify that one of these conditions exists.
