

Lincoln County Bridge and Culvert Aids Program

Municipality Information (Representative's contact information)	Project Location (If possible, include a map with your submittal)
Municipality Name:	Road Name:
Local Representative's Name:	Date:
Address:	Waterway Name:
City, State, Zip Code:	Legal Description: _____ 1/4, _____ 1/4, Section _____
Telephone Number:	Township _____ North, Range _____ <input type="checkbox"/> East <input type="checkbox"/> West
E-mail Address:	Directions from nearest intersection:

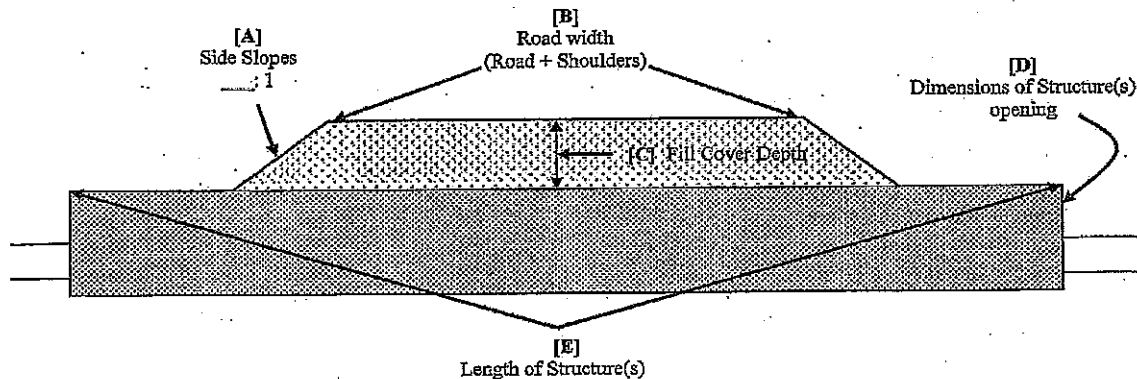

Eligibility Information:

1. Is the structure larger than 48" Yes No
2. Does the culvert have a history of overtopping, flooding, or washing out the roadway? Yes No
3. Has the applicant completed Wisconsin DNR Trans 20 application? Yes No
4. Has the applicant utilized BCA funding in previous years? If so, when _____ Yes No

Section A:

1. What is the estimated cost being requested for reimbursement? (This should be no more than 50% of the project cost or the locals share) \$ _____
2. When will the culvert or bridge construction activities begin and end?
Anticipated start date _____, anticipated completion date _____
3. Has a contractor been selected for this project? Yes No If so, Who _____
4. Are you planning any other road improvements associated with the replacement of this culvert or bridge?
If so, please explain below. If improvements would be best explained with sketches, feel free to do so. Attach additional sheets as necessary.

Section B: Provide the measurements (A-E) listed in the diagram below for the existing and proposed structure conditions. All measurements should be in feet and inches.

Conditions of Existing Pipe(s)	Conditions of Proposed Pipe(s)
[A]	[A]
[B]	[B]
[C]	[C]
[D]	[D]
[E]	[E]

1. What material is the culvert pipe? (eg. steel, plastic, concrete, etc...)

Existing _____ Proposed _____

2. Does either the existing or proposed structure have endwalls?

Existing Pipe Endwalls Yes No
Existing Endwall Length _____

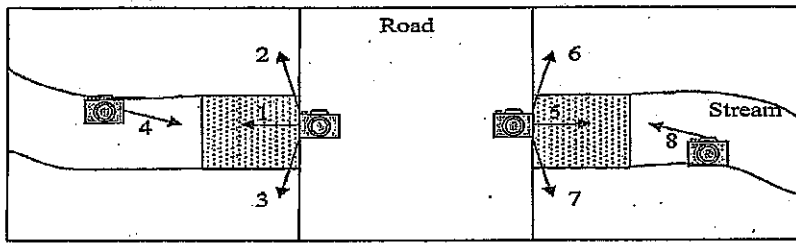

Proposed Pipe Endwalls Yes No
Proposed Endwall Length _____

3. What is the percent slope of the current and proposed pipes?

Current Pipe Slope _____ %
Proposed Pipe Slope _____ %

% Slope = (Rise/Run) x 100
Run = Length of Pipe
Rise = Inlet elevation - Outlet elevation

Section E: We strongly recommend attaching or e-mailing photos of the structure from the locations shown on the diagram below. Inclusion of pictures can help speed up project reviews. Please label photos with numbers as indicated in diagram. Show the direction of flow in the stream by drawing an arrow on

Section F: Completion of this conceptual plan does not guarantee Lincoln County will concur with the project design or funding as proposed. The Highway Department will review the project proposal and site specific conditions to determine if the project meets the eligibility requirements of the BCA program. More information may be needed prior to proceeding with this application. The Lincoln County Board of Supervisors and the Town LRI Committee will have the final determination in the project funding.

Lincoln County approval of this project does not exempt the applicant from other permits or approvals that may be necessary from other State and/or Federal agencies, such as the DNR and Army Corps of Engineers. It is the applicant's responsibility to obtain all necessary permits and approvals from the appropriate entities prior to construction.

By signing below you are acknowledging that you have read this information and understand that further reviews may be needed to proceed with your project. The signer of this document is acknowledging they have the authority to represent the constructing municipality.
